

Information on pediatric cooperation medical institutions where people aged 5 to 11 can be vaccinated (as of July 20)

Request for reservation

- For inoculation, we will use Pfizer's new corona vaccine for children (5 to 11 years old).
- It is necessary to receive two vaccinations at intervals of 3 weeks. Those who are 12 years old after receiving the first vaccination will continue to Get vaccinated for children (5 to 11 years old).
- As a general rule, the new corona vaccine and other vaccines cannot be inoculated at the same time. The new corona vaccine and other vaccines Each other can be vaccinated two weeks after receiving one of the vaccines.
- If you want to reserve a "family slot" that accepts only family members for individual vaccination, please make a reservation using the reservation method for each medical institution.
- If you want to reserve a "general frame" where anyone can receive vaccination by individual vaccination, please have your vaccination ticket ready and go to the City Corona Vaccination Call Center.

Please contact us or make a reservation from the city vaccination reservation site.

Please note that you cannot make a reservation for the "general quota" even if you contact the medical institution directly.

* The reservation start date for the "family slot" varies depending on the medical institution. In addition, the reservation start date for the "general quota" may differ depending on the medical institution.

* Please note that you cannot make a reservation for the "general frame" even if you contact the medical institution directly.

• Please do not make duplicate reservations for multiple medical institutions or group vaccinations beyond the two doses you actually receive.

• If it is unavoidable that you cannot receive the vaccination on the reserved date, please cancel immediately.

For parents with children 5-11 years old

• You must be accompanied by a guardian on the day of inoculation.

• When inoculating, in addition to the "new coronavirus vaccination ticket (coupon ticket) for the person (child)" and "preliminary examination slip" mailed from Chiba City, "identity verification documents" (You can check the name of the insured person's card, etc.). Also, since it is used to check the history of other vaccinations, "Mother and Child Health Handbook" If you have, please be sure to bring it with you.

• When inoculating, please sign the name of the guardian in the signature line of the pre-examination slip. If you do not wish to receive the vaccination, please do not enter anything in the self-signed column.

You will not be vaccinated without the parent's signature on the pre-examination slip.

• If you have any questions, please see the information from the country or Chiba City in advance, or check with your GP or Chiba City Corona Vaccination Call Center.

Please make a decision after convincing.
